

# Threat and Physical Security Assessment

California schools and public agencies face countless security risks including theft, vandalism, arson, acts of violence, and criminal mass casualty incidents. Keenan IMReady services are specifically developed to help schools and public agencies address these issues in order to facilitate a safer environment. IMReady services help to mitigate risks while maintaining continuity of business operations.

Keenan IMReady team members have more than 45 years of combined law enforcement and military experience coupled with more than 50 years of risk management experience. Team members maintain ongoing communication and collaborate with state and federal law enforcement as well as emergency management agencies, to ensure that they remain current and relevant. The Keenan IMReady Threat and Physical Security Assessment (TaPS) is specifically designed to provide your District with a proactive means of identifying, documenting, and prioritizing, existing security risks.

The concepts of Crime Prevention Through Environmental Design (CPTED) and the latest national best practice are woven into every TaPS assessment the IMReady team conducts.

Examples of items assessed during a TaPS assessment include, but are not limited to the following:
